SECTION ONE: OPENING STATEMENTS

This product has been formulated for external cosmetic use.
The information herein should be interpreted for personal and professional salon use.

SECTION TWO: COMPOSITION

Colophonium (Rosin), Glyceryl Hydrogenated Rosinate, Cera Alba (Beeswax), Paraffin, Lanolin.
May also contain: Colours/Pigments, Fragrance, Essential Oils, Mineral Oil.

SECTION THREE: HAZARDS IDENTIFICATION

- Contains Rosin which can be slightly hazardous. In rare cases it can cause skin irritation or be a sensitisier. It can cause contact dermatitis in very rare cases. In the context of depilatory waxing, adverse reactions to rosin occur only very rarely, in sensitive individuals. If a skin reaction occurs, seek medical advice; treat symptomatically. Discontinue use of rosin containing products. Individuals with a known rosin allergy should not use rosin containing waxes, but should instead use a non-rosin containing wax such as Lycon Lycotec wax.
- Emergency Overview: Retail quantities of this product are not anticipated to lead to emergency circumstances when used as directed on the label.
- Potential Health Effects: The constituents of this product are internationally recognised as suitable for inclusion in cosmetic products. No potential adverse health effects are anticipated when used in conjunction with the directions contained on the label. Individuals with a known rosin allergy should heed the advice given in the first point of this section.

SECTION FOUR: FIRST AID MEASURES

Inhalation
Inhalation is unlikely to occur.

Skin
If irritation does occur, wash thoroughly with soap and warm water.

Eye
Unlikely to enter eyes.
Ingestion
Not expected to be hazardous. Give a drink of water. If discomfort occurs seek medical advice

SECTION FIVE: FIRE FIGHTING MEASURES
Not expected to be flammable. Contains resins and waxes which can support combustion. Packaging could be expected to contribute fumes to large fires.

SECTION SIX: ACCIDENTAL RELEASE MEASURES
Waste Disposal Method: Dispose as solid waste as permitted by local, state and federal authorities. Steps to be taken in case material is released or spilled: Absorb the liquid and scrub area with water

SECTION SEVEN: HANDLING AND STORAGE
Maintain the integrity of the original packaging

SECTION TEN: STABILITY AND REACTIVITY

Conditions to Avoid: Maintain integrity of packaging
Materials to Avoid: Not Established
Shelf Life: 4 years
Shelf Life after opening: 24 months

SECTION ELEVEN: TOXICOLOGICAL INFORMATION

This product has been formulated for use as a topical cosmetic product. Use of this product as directed on the label is not expected to result in toxic effects.

SECTION TWELVE: ECOLOGICAL INFORMATION

Ingredients used in this product are not known to be direct ecological pollutants. In order to minimise long term global pollution consideration should be given to:
- Reduction in consumption of disposable products and packaging.
- Participation in recycling activities

SECTION THIRTEEN: DISPOSAL CONSIDERATIONS

This product has been manufactured for consumer use. Product is normally rinsed to drains as routine personal hygiene practice. The packaging can be disposed as standard household waste, although sorting and appropriate recycling of packaging materials is encouraged.

SECTION FOURTEEN: TRANSPORT INFORMATION

Road and Rail Transport: Not DG according to ADG
Air Transport: Not DG according to IATA
Sea Transport: Not DG according to IMDG

SECTION FIFTEEN: REGULATORY INFORMATION

This Product is manufactured in Australia, under Australian Law. The following regulatory bodies are the source of reference information.

SECTION SIXTEEN: OTHER INFORMATION

Disclaimer  
This MSDS has been prepared according to Work Safe guidelines and with reference to the best available information at the time of preparation. Since we are unable to control and/or anticipate all conditions under which the product may be used, each user must review this MSDS and assess it in the context of their circumstances in order to determine the most appropriate usage and handling procedures for their situation. If clarification or further information is needed to ensure that an appropriate assessment can be made, then the user should contact the manufacturer.

Allergies  
There is always a possibility of an individual being allergic to one or several ingredients within a product. A low irritant claim does not infer that susceptible individuals will not react adversely. Allergies are very much a personal condition and do not in any way indicate a fault with the formula or substances involved. Natural substances particularly are vulnerable to seasonal and other variations that may contribute to unanticipated reactions. Unfortunately, often the only remedy in these situations is to ascertain the exact cause of the reaction (typically with professional medical help) and then to avoid all future exposure.

Animal Products  
Suitable for vegetarians

Document Revision
